

Report from Professor Akira Senda President IFED Chairman, IFED 2017, Toyama City

Dear Friends,

Happy New Year! I hope that all colleagues from the IFED member academies are well and rested. I now relax and take a very short but comfortable time off with my family at my home in Nagoya, Japan.

The IFED “Corporate Partner” innovation has already got 8 partners from Japan, Korea and USA. IFED wishes to thank Bisco, Dentrum, GC, J. Morita, Kurarey/Noritake, Shofu, Tokuyama and Ultradent for their very kind understanding and contributions

This “Newsletter” is another memorial evolution in the IFED. The communications between member academies have been one of the major concerns in the organization.. The Newsletter is one method of sharing news and events. We welcome your contributions!

As the past president of JAED and the congress president of the 10th IFED World Meeting, I sincerely apologize having to change the dates and the locations. We have moved the dates from September 21-24 to September 14- 17 (including JAED Annual Meeting) and the venue from the International

Meeting Center in Nagoya City to International Meeting Center in Toyama City. Details of the venue and the meeting will be soon sent you by the host academy, the JAED.

We are gathering to the Swissotel, Chicago next February 26 for the EXCO, GA meetings and the cocktail party. I look forward to seeing you all!

Akira Senda

Prof. Akira Senda, IFED President

THE ELECTRONIC FACE OF IFED

FACING THE FUTURE TODAY

Following intensive, constructive debate at the General Assembly meeting in

Cologne, 2015, the IFED

Executive Council has

launched an ambitious

project to improve

communication, inter-

action and overall

branding of IFED by

means of Electronic

Interfaces.

This development of the

Electronic Face of IFED

will be thoroughly

described and

demonstrated during the GA annual meeting in Chicago on the 27th

February at the Swissotel.

A brief outline of the schema will now be described in this Newsletter. The

IFED presence will be targeted at four groups, the Executive Council, the

General Assembly, the Dental Trade and the General Public. The presence

will be broadcast and published by means of a new dynamic website as a

data depository, Social groups for news, events, clinical procedures, forums

and general communication and interaction in the form of Facebook Pages and Groups; Twitter, Blogs, Google-apps with common usage of G-drive, Corporate Partnerships, Forums, Scientific Meetings inter alia. The interfaces will be demonstrated in Chicago as well as 3rd party demonstrations.

Strong and Steady: New AACD Survey Measures Pulse of Cosmetic Dentistry

MADISON, Wis. (1/15/16) — A recent survey of dental professionals conducted by the American Academy of Cosmetic Dentistry (AACD) reveals that cosmetic procedures continue to bring life to dental practices. The AACD has conducted the biennial State of the Cosmetic Dentistry Industry Survey over the last 11 years, and the data collected is used to determine the size and impact, in terms of procedures and revenues, of the cosmetic dentistry market. The [2015 State of the Cosmetic Dentistry Industry survey](#) supports earlier data that the field of cosmetic dentistry continues to flourish and show persistent growth potential.
